

# SEND Information Report: Gunnersbury Catholic School – 2021/2022

This SEND information Report outlines information regarding the way we support students with Special Educational Needs and Disabilities (SEND).

## Definitions of Special Educational Needs and Disabilities

Pupils have special educational needs or disabilities if they have difficulty accessing the curriculum and therefore require special educational provision to be made for them.

Pupils have difficulty accessing the curriculum if they:

- Have a significantly greater difficulty in learning than the majority of others of the same age or
- Have a disability that prevent or hinders them from making use of educational facilities of a kind generally provided for children of the same age in mainstream schools (SEND Code of Practice 2014).

The purpose of identification is to work out what action the school needs to take, not to fit a pupil into a category. However, these four broad areas of need, identified in the SEND Code of Practice (2014) give an overview of the range which are planned for:

- Communication and interaction, including Speech and Language Difficulties
- Cognition and Learning, including Specific Learning Difficulties
- Social, emotional and mental health difficulties, including Attention Deficit Hyperactivity Disorder, Autistic Spectrum Conditions
- Sensory and/or physical needs, including visual impairment, hearing impairment and physical disability.

## Identifying Special Educational Needs and Disabilities

Special educational provision may be triggered when students fail to achieve adequate progress despite having had access to differentiated materials as part of quality first teaching.

### Lack of adequate progress may be indicated by:

- Little or no progress despite the use of targeted teaching approaches and 'quality first teaching' and a differentiated curriculum.
- Working at levels significantly below age expectations, particularly in literacy or numeracy.

- Presenting persistent emotional and/or behavioural difficulties which have not been managed by appropriate strategies employed by classroom teachers and pastoral staff.
- Sensory or physical impairments that result in little progress despite the provision of appropriate aids or equipment.
- Poor communication or interaction, requiring specific interactions and adaptations to access learning.

**The following are NOT SEND but may impact on progress and attainment:**

The Code of Practice outlines the “**reasonable adjustment**” duty for all settings and schools provided under disability equality legislation. The following areas alone do not constitute SEND:

- Persistent disruptive behaviour where there are no causal factors, such as undiagnosed learning difficulties or difficulties with communication or mental health issues.
- Attendance and punctuality.
- Health and Welfare.
- EAL.
- Being in receipt of Pupil Premium Grant
- Being a Looked After Child
- Being a child of a serviceman/woman

### A. HOW COULD MY CHILD GET HELP IN SCHOOL?

Children in school will get support that is specific to their individual needs. This may be provided by their subject teacher, staff within the school, or may involve professionals external to the school such as: NHS staff, CAMHS (Child & Adolescent Mental Health Service), Speech Therapy, Occupational Therapy etc), Local Authority staff including Educational Psychologists.

#### What are the different types of support available for children with SEND at Gunnersbury Catholic School?

Types of support provided	What would this mean for your child?	Who gets this support?
<p><b>Class teacher input via excellent targeted classroom teaching.</b></p>	<p>Teaching students with SEND is a whole school responsibility. All teachers maintain a continuous cycle of planning, teaching, assessment and evaluation that takes account of the wide range of abilities and aptitudes of the students. Teachers should have the highest possible expectations for your child and all the pupils in their class, providing quality first teaching. The majority of students at Gunnersbury Catholic School learn and progress through these differentiated arrangements.</p> <p>A ‘graduated response’ is adopted for students identified as having SEND. A level and type of support is provided to enable the student to achieve at least adequate progress. Provision is identified and managed by the SENDCO and will be planned and delivered by teaching and support staff. They will be:</p> <ul style="list-style-type: none"> <li>• Ensuring that all teaching is based on building on what your child already knows, can do and can understand. All children in school should be getting this as a part of excellent classroom procedure.</li> <li>• Putting in place different ways of teaching so your child is fully involved in learning in class.</li> <li>• This may involve various strategies including:               <ul style="list-style-type: none"> <li>➤ The use of IT and alternative technology;</li> <li>➤ A variation in the degree of support for an individual learner;</li> </ul> </li> </ul>	<p>All children in the school should receive this as part of excellent practice.</p>

	<ul style="list-style-type: none"> <li>➤ Targeted use of additional adults;</li> <li>➤ Writing frames;</li> <li>➤ Breaking tasks into smaller activities (“chunking”);</li> <li>➤ Alternative resources;</li> <li>➤ Simplified language;</li> <li>➤ Extension activities to challenge the more able learner;</li> <li>➤ Putting in place specific strategies (which may be suggested by the SENDCO or outside staff) to support your child to learn.</li> </ul>	
<p><b>Specific group work within a smaller group of children.</b>  <b>This group may be:</b></p> <ul style="list-style-type: none"> <li>• <b>Organised in the classroom or outside.</b></li> <li>• <b>Organised by a teacher or a teaching assistant, or another professional.</b></li> </ul>	<ul style="list-style-type: none"> <li>• Your child’s teacher will have carefully checked on their progress and will have decided that your child has gaps in their understanding/learning and needs some extra support to help them make the best possible progress.</li> <li>• He/she will plan group sessions for your child targeting specific areas.</li> <li>• A teaching assistant/teacher/trainee professional/ or outside professional (like a Speech and Language Therapist) will run these small sessions.</li> <li>• Your child will have been identified by the class teacher/SENDCO (or you will have raised your concerns) as needing more specialist input instead of, or in addition to, excellent class room teaching and intervention.</li> <li>• You will be given an opportunity to discuss or learn more about the proposed intervention.</li> <li>• You may be asked to give your permission for the school to refer your child to a specialist professional e.g. a Speech and Language Therapist or Educational Psychologist. This will help both the school and yourself understand your child’s particular needs more clearly, and therefore be in a better position to offer help.</li> </ul>	<p>Students identified will be judged likely to benefit from small group work to support aspects of their learning.</p>

Types of support provided	What would this mean for your child?	Who gets this support?
<p><b>Specified individual support for your child. This is usually provided via a Education, Health and Care Plan (EHCP). This means your child will have been identified by the class teacher/SENDCO as needing a particularly high level of individual or small group teaching which cannot be provided from the budget available to the school. Additional resources are allocated by the Local Authority specifically for the education of the individual student. Often your child may also receive specialist support in school from a professional outside the school.</b></p>	<ul style="list-style-type: none"> <li>• The school may suggest that your child needs some agreed individual support in school. They will tell you how the support will be used and what strategies will be put in place.</li> <li>• The school (or you) can request that the Local Authority carry out a statutory assessment of your child’s needs. This is a legal process. You can find more information about this in the Hounslow SEND Local Offer.</li> <li>• The school and parents work together to compile information about the child. This is sent as a request to the Local Authority. They decide if a Statutory Assessment is required. This involves parents and all professionals who work with the child to write a report that outlines their needs. Parents are able to challenge decisions made by the Local Authority.</li> <li>• After the reports have all been received the Local Authority will decide if your child’s needs are severe, complex and lifelong and whether they require support. If this is the case they will write an Education Health and Care Plan. If this is not the case, they will ask the school to continue with the support as SEND Support.</li> <li>• The Education, Health and Care Plan will outline the overall support your child should receive. This could include specific funding for teacher or teaching assistant support or might include funding for other provisions externally supplied to the school such as speech and language therapy. The EHC Plan will detail long and short term goals for your child which should be reviewed annually.</li> </ul>	

	<ul style="list-style-type: none"> <li>The additional adult, paid for by the extra funding an EHCP provides, may be used to support your child with whole class learning, run individual programmes or small group work to assist your child's learning.</li> </ul>	<p>Young people whose learning needs have been assessed as meeting the criteria for an Education Health and Care Plan (EHCP).</p>
<p><b>How can I let the school know I am concerned about my child's progress in school?</b></p>	<ul style="list-style-type: none"> <li>Firstly, if you have concerns about your child's progress you should speak to you child's tutor or Head of Year,</li> <li>If you feel that the concerns are still not being managed and that your child not making progress you should speak to the SENDCO.</li> <li>If the issue remains unresolved please contact the Deputy Headteacher – Line Manager for SEND – Mr Brian Finnegan.</li> <li>If you are still not happy that the concerns are being managed and that your child is still not making progress you should speak to the Lead Deputy Headteacher – Mr Christian Parker.</li> <li>If you remain concerned please contact Mr Kevin Burke, Headteacher.</li> </ul>

This is another way your child may be identified as not making progress. If your child is then identified as not making progress at school we will organise a meeting to discuss this with you in more detail:             <ul style="list-style-type: none"> <li>To listen to any concerns you may have</li> <li>Plan any additional support your child may receive</li> <li>To discuss with you any referrals to outside professionals to support your child's learning</li> </ul> </li> </ul>
