What to do if a pupil/student tests positive for COVID-19 on a Lateral Flow Device (LFD).

A pupil/student in my school and college has tested positive on an LFD test, what do I do now?

1. Record details

- Ensure any details of the pupil / student are recorded securely to protect their privacy.
- They will need to do a confirmatory PCR test.

school/college know about the be told via text/email)

2. Contact parent / legal guardian

Call their parent or legal guardian and arrange for the pupil or student to be collected if needed.

Tell them they should take a confirmatory PCR test

Isolate as per current guidance and talk with the pupil or student. being mindful of the need for social distancing/PPE

They may be anxious about their health and impact on their family. This is a chance to reassure them:

- · For most people, symptoms will last up to 10 days and be mild.
- There is support available with learning from home and support for their parents with work and benefits.

5. Reminder to share result of PCR test

Before they go, remind them and /or their parent/carer to let result of the PCR test (they will

4. Offer support

Take steps to ensure that pupils or students can access remote learning at home. Remote learning advice:

It is really important that they follow the national guidance and self isolate for 10 days from the PCR test.

They can take pride that they are doing their bit to protect their friends and family and defeat th virus

IMPORTANT: If, at any point, a student, pupil or staff member begins displaying symptoms they must follow government guidelines, order a PCR test and self-isolate.

 Support if you're off work while selfisolating: https://bit.lv/isolatesupport
