

YEAR 8 CURRICULUM SUMMARY

When?	Understanding	Knowledge	Assessment
Autumn Half Term 1 Population	 Population Key Learning Qs: How does population change? Why does population change? How do we look at population structures? How does population change overtime? Why do people move? What are the effects of migration on the UK? How and why are cities growing around the world? Why are people leaving the city? What are the problems of there being too many people? 	 PKA: When discussing the distribution of population students will be required to use their locational knowledge from Unit 2 Map Skills (Year 7). This will enable them to describe trends and patterns. PKA: When students are discussing the reasons people migrate they can link this to Human Geography of the UK (Year 7 Unit 5) and the link between the economy and migration. PKA: Throughout the unit retrieval activities and questions will be used to recap prior knowledge. PKA: Revision lesson and assessment preparation. 	 Students are assessed through homework tasks. Students are expected to complete one homework task per week. Every three weeks or 8 lessons one piece of work is to be deep marked by subject teacher. Key Feedback sticker to be completed. Student's classwork must also be marked in alignment with the school and department policy. Students are required to self and peer-assess specified pieces of work and then improve on the work that they have completed (using purple pen). Students are required to complete a midtopic assessment in which involves choices to encourage decision-making) They are required to complete a formal assessment at the end of the topic to assess learning (October half-term)

When?	Understanding	Knowledge	Assessment
Autumn half term 2 Biomes and Ecosystems	 Biomes and ecosystems Key Learning Qs: What and where are biomes? Why are biomes located where they are? What are rainforests like? How do nutrients move around the ecosystems? What is causing the rainforest to be cut down? What are the impacts of deforestation? Should we be cutting down the rainforests? What is the taiga like? What is happening in the Savannah? 	 PKA: Students will recap latitude and longitude (Year 7 Unit 2) to discuss the link to distribution of ecosystems and biomes. PKA: Students will recap hydrological cycle (Year 7 Unit 3) to discuss why the rainforests receives high amounts of rainfall. PKA: Throughout the unit retrieval activities and questions will be used to recap prior knowledge. PKA: Revision lesson and assessment preparation. 	 Students are assessed through homework tasks. Students are expected to complete one homework task per week. Every three weeks or 8 lessons one piece of work is to be deep marked by subject teacher. Key Feedback sticker to be completed. Student's classwork must also be marked in alignment with the school and department policy. Students are required to self and peer-assess specified pieces of work and then improve on the work that they have completed (using purple pen). Students are required to complete a midtopic assessment in which involves choices to encourage decision-making) They are required to complete a formal assessment at the end of the topic to assess learning (December). Presentations can be considered too.

When?	Understanding	Knowledge	Assessment
Spring half term 1 Weather and Climate	 Weather and climate Key Learning Qs: What is weather? What causes the weather? What are the different types of rainfall? How does air pressure affect our weather? Why is our weather so changeable? What factors affect our climate? How do we present and read the climate? What happened in the UK Storms of 2013/14? What is happening to the earth's climate? 	 PKA: Students will recap latitude and longitude (Year 7 Unit 2) to discuss contrasting climate zones on a global zone. PKA: Students will recap hydrological cycle (Year 7 Unit 3) to discuss the processes involved in creating rainfall PKA: Students will recap climate graphs to describe the differences between contrasting biomes (Year 8 Unit 2). PKA: Throughout the unit retrieval activities and questions will be used to recap prior knowledge. PKA: Revision lesson and assessment preparation. 	 Students are assessed through homework tasks. Students are expected to complete one homework task per week. Every three weeks or 8 lessons one piece of work is to be deep marked by subject teacher. Key Feedback sticker to be completed. Student's classwork must also be marked in alignment with the school and department policy. Students are required to self and peer-assess specified pieces of work and then improve on the work that they have completed (using purple pen). Students are required to complete a midtopic assessment in which involves choices to encourage decision-making) Pupils are required to complete a formal assessment at the end of the topic to assess learning (February half-term). Can be in the form of a presentation.

When?	Understanding	Knowledge	Assessment
Spring half-term 2 Energy and Resources	 Energy and resources Key Learning Qs: What is energy? Who has access to energy? What are fossil fuels? What are the costs of developing fossil fuels? What are renewable energy resources? How can wind farms help? Is nuclear power the answer? How can we be more sustainable? How can the school be more sustainable? 	 PKA: Recap the role of geology in the creation of sedimentary rock (Year 7 Unit 4). PKA: Use map skills gained throughout Year 7 and beginning of Year 8 to describe distribution of energy resources on a global scale. PKA: Students will need to recap the concept of 'sustainability' to discuss the future concerns of energy security (Year 7 Unit 3 and Year 8 Unit 3). PKA: Throughout the unit retrieval activities and questions will be used to recap prior knowledge. PKA: Revision lesson and assessment preparation. 	 Students are assessed through homework tasks. Students are expected to complete one homework task per week. Every three weeks or 8 lessons one piece of work is to be deep marked by subject teacher. Key Feedback sticker to be completed. Student's classwork must also be marked in alignment with the school and department policy. Students are required to self and peer-assess specified pieces of work and then improve on the work that they have completed (using purple pen). Students are required to complete a midtopic assessment in which involves choices to encourage decision-making) Pupils are required to complete a formal assessment at the end of the topic to assess learning (Easter).

When?	Understanding	Knowledge	Assessment
Summer half term 1 Urbanisati on	 Urbanisation Key Learning Qs: What is a settlement? How do settlements function? How are urban areas structured? How did cities grow? Why do people move to urban areas? What is Mumbai like? What is the quality of life like in Mumbai? How has London's character changed? Why have some urban areas declined? 	 PKA: Students will recap settlement type (Year 7 Unit 5) to discuss the differences between urban and rural locations. PKA: Students can discuss push and pull factors and the reasons why people move to urban areas (Year 8 Unit 1). PKA: Wen describing the location of Mumbai, students will recap Map Skills (Year 7 Unit 2) to accurately identify continent, country, surrounding locations, cities and seas/oceans. PKA: Throughout the unit retrieval activities and questions will be used to recap prior knowledge. PKA: Revision lesson and assessment preparation. 	 Students are assessed through homework tasks. Students are expected to complete one homework task per week. Every three weeks or 8 lessons one piece of work is to be deep marked by subject teacher. Key Feedback sticker to be completed. Student's classwork must also be marked in alignment with the school and department policy. Students are required to self and peer-assess specified pieces of work and then improve on the work that they have completed (using purple pen). Students are required to complete a midtopic assessment in which involves choices to encourage decision-making) Pupils are required to complete a formal assessment at the end of the topic to assess learning (June half-term). Can be in the form of a presentation.

When?	Understanding	Knowledge	Assessment
Summer half-term 2 Superpowe rs	 Superpowers Key Learning Qs: What is a superpower? How do countries influence each other? Who are the emerging superpowers? Is China a superpower? How did China's economy grow? What influence does China have? Is Russia a powerful place? How does Russia influence Europe? What are the challenges for the superpowers in the future? 	 PKA: Using maps to describe how the physical and human features of a country can determine superpower status. PKA: Recap of employment sector (Year 7 Unit 5) and how this is influential in a country's development. PKA: Throughout the unit retrieval activities and questions will be used to recap prior knowledge. PKA: Revision lesson and assessment preparation. 	 Students are assessed through homework tasks. Students are expected to complete one homework task per week. Every three weeks or 8 lessons one piece of work is to be deep marked by subject teacher. Key Feedback sticker to be completed. Student's classwork must also be marked in alignment with the school and department policy. Students are required to self and peer-assess specified pieces of work and then improve on the work that they have completed (using purple pen). Students are required to complete a mid-topic assessment in which involves choices to provide the marked in the ma
			 encourage decision-making) Pupils are required to complete a formal assessment at the end of the topic to assess learning - End of year exam.
