

Apps & Websites

General Wellbeing

CALM

#1 App for Mindfulness and Meditation. (Available on iOS, Android & Web)

Breathe2Relax

The relaxation app trains you on the “belly breathing” technique that has proven benefits for your overall mental health. (Available on iOS and Android)

Stress Check by Azumio

This app takes you on a deep breathing exercise to promote calmness and can bring your heart rate down in five minutes. The app provides instant feedback with breath and pulse monitoring and tracks long-term progress. (Available on Android)

Happify

The Happify app is a way to make a game of all the positive psychology tricks you know might work, but make you feel kind of silly when you actually do them. You’ll start by taking a quick test that assesses the areas of happiness you should work on. Then, you’re presented with a few “tracks” that can help get you to your goals. (Available on iOS and Android)

MeeTwo

An award winning free fully moderated app for teens, which provides peer support, expert help, inbuilt educational and creative resources as well as in app links to UK charities and helplines. MeeTwo allows young people to experiment with what it feels like to open up without drawing attention to themselves while positive feedback and social support builds confidence, increases wellbeing and promotes emotional resilience. (Available on iOS and Android)

Moment

Moment tracks how much time you spend on your phone each day. (Available on iOS)

Stepfinder

StepFinder pin-points your nearest local support service and shows you how to get there using your phone. It shows you tips and recommendations from other young people, so you know what to expect when you use a service for the first time. (Available on iOS)

ANXIETY

SAMAPP: APPS FOR ANXIETY

SAM is an application to help you understand and manage anxiety. (Available on iOS and Android)

PACIFICA

Daily tools for stress, anxiety, and depression alongside a supportive community. Based on cognitive behavioural therapy & mindfulness meditation. (Available on iOS, Android & Web)

Thrive: Feel Stress Free

When you log in it gives you different tips to help you relieve stress/anxiety. There are tabs for meditation, deep relaxation, self-hypnosis, and more. (Available on iOS and Android)

BASE

An app designed to help manage stress and anxiety. By learning more about how and why we experience anxiety at different times and in different situations we can be less fearful. (Available on Android)

MindShift

An app designed to help teens and young adults cope with anxiety. It can help you change how you think about anxiety. (Available on iOS and Android)

Smiling Mind

Trying to incorporate mindfulness into your daily life? This app can help you launch into a regular practice of mindfulness meditations. (Available on iOS and Android)

Wysa Happiness Chabot

Wysa helps to build emotional resilience by talking to you about your situation. Over 60 psychologists and 10,000 users have provided specific inputs to shape how Wysa helps them. (Available on iOS and Android)

I love Hue

When you feel like you have no control, this app can help soothe you by creating simple visual harmonies from mosaic tiles. (Available on iOS and Android)

Anxious Minds

Anxious minds are a charity that was set up by sufferers of anxiety and depression, to provide free support to all sufferers of anxiety and depression. (Available on Android)

Worry Watch

This journaling tool has a simple user interface where users can log instances of worry, fear, and anxiety. They can also add the outcome of each situation, which provides a comparison between expectation and reality that helps reduce anxiety over time. (Available on iOS)

Depression

What's Up? Anxiety App

This app uses CBT and ACT (Acceptance Commitment Therapy) methods to help you cope with Depression, Anxiety, Anger, Stress and more. (Available on iOS and Android)

WELLMIND

WellMind is your free NHS mental health and wellbeing app designed to help you with stress, anxiety and depression. The app includes advice, tips and tools to improve your mental health and boost your wellbeing. (Available on iOS and Android)

WRAP (cost – £3.03)

WRAP was developed by a group of people who have a lived experience of mental health difficulties. Using a WRAP involves listing your personal resources (Wellness Tools), and then using these resources to develop Action Plans. You decide how and when to use your WRAP. (Available on iOS and Android)

Cove

Free, personal music journal to help you with your emotional and mental health. Trusted by the NHS. (Available on iOS)

Reflectly

A personal journal and diary driven by AI to enable you to deal with negative thoughts, make positivity louder and to teach you about the science of well-being. (Available on iOS and Android)

Happy not perfect

Backed by science, designed for you, Happy Not Perfect is your go-to place for everything you need to look after your mind in a fun new way. (Available on iOS and Android)

Self-Harm

CALM HARM

Calm Harm provides tasks that help you resist or manage the urge to self-harm. You can add your own tasks too and it's completely private and password protected. (Available on iOS and Android)

Blueice

A prescribed evidence-based app to help young people manage their emotions and to reduce urges to self-harm. It includes a mood diary, toolbox of evidence-based techniques to reduce distress and automatic routing to emergency numbers if urges to harm continue. (Available on iOS and Android)

Suicide

Stay Alive App

A free, national suicide prevention pocket resource, packed full of useful info to help you stay safe. It offers help and support both to people with thoughts of suicide and to those concerned about someone. (Available on iOS and Android)

MY3

With MY3, you define your network and your plan to stay safe. With MY3 you can be prepared to help yourself and reach out to others when you are having thoughts of suicide. (Available on iOS and Android)

Eating Disorders

Recovery Record: RE Eating Disorder Management

This highly rated app draws on CBT and self-monitoring methods to help manage eating disorders. Users can keep a food journal, make meal plans, and learn coping methods. (Available on iOS and Android)

Rise Up – Eating disorder recovery

Rise Up + Recover is an app for people struggling with food, dieting, exercise and body image. The app is based upon self-monitoring homework, a cornerstone of CBT. (Available on iOS and Android)

Diet Or Disorder

The app provides tools to support and empower those who might have an eating disorder and well as their loved ones. Providing a host of information in a portable format, the app gives psychoeducation about eating disorders, including decisional tools to help identify an eating problem. (Available on iOS and Android)

Body Image

Good Blocks

A free app designed to improve your mood, self-esteem and body image. It helps you train your mind to reject negative thoughts in a fun and creative way. (Available on iOS and Android)

Grief

Grief

Created by a group of bereaved young people working directly with Child Bereavement UK. It has been developed for 11-25 year olds who have been bereaved of someone important to them. It can also be used by friends, teachers, parents and professionals who would like to know how to support bereaved young people. (Available on iOS and Android)

Smiles and Tears

It provides an interactive tool to record memories, send gifts and write thoughts, feelings and emotions. As well as these interactive tools, Smiles and Tears have also provided tips on how to manage emotions such as anger, confusion, guilt, loneliness etc. (Available on iOS and Android)

Addiction

Quit That!

Free app that lets you easily track all of the things you want to quit. (Available on iOS)

Sleep

Relax Melodies

Combining over 100 relaxation sounds, melodies, binaural beats and white noise, Relax Melodies allows you to create your very own relaxing soundscapes. Play them all night or for a determined period of time, thanks to its built-in timer. (Available on iOS and Android)

Pillow Automatic Sleep Tracker

Sleep better with Pillow, your smart sleep assistant. Pillow can analyse your sleep cycles automatically using your Apple Watch, or you can use Pillow without an Apple Watch by placing your iPhone or iPad on the mattress near your pillow. (Available on iOS)
