

Year 8 ART

Drawing skills

You will draw from observation so that you will become confident in your drawing skills using shading techniques

Colour Theory

You will learn about colour blending to further understand how to create a 3_D impression in your drawing

Contextual Study

You will study the Pop art movement and present your knowledge in a visually interesting way

Artist Research

You will complete Pop artist research tasks so that you understand the ideas and intentions of the artists of the time

Artist Inspiration

You will look at several artists within the Pop Art movement to inspire you to create your own designs

TRIO

You will also revisit tasks and try to improve a piece of work once every half term

Papier Mache

Ever wondered how objects move and work? If so this is for you. This project shows how we can turn oscillating to linear movement. We will design a scene that involves moving parts or components.

3-D Card Construction

You will learn the skills of 3-D card construction using a variety of resources

Acrylic Painting

You will use your knowledge from year 7 of colour mixing to mix and apply acrylic paint successfully

Evaluation

You will peer and self assess your final outcome and write a written evaluation including WWW/EBI so that you are able to successfully reflect on your work
