

# Start

# Year 7 Art

## Drawing Skills

You learn the basic skills in drawing including, tone, blending, texture and colour. The basic skills are relevant in all areas of art.

## Developing Drawing skills

You will develop their basic drawing skills using a range of media

## Assessment

You will be assessed on the outcome of a drawing based assignment.

## Colour Theory

You will learn about colour theory, mixing and painting techniques

## Developing and application of colour knowledge

You will study a specific artist and produce a piece of work developing their colour knowledge using a range of media.

## Assessment

You will apply colour techniques using a specific artist and will be assessed on the final outcome

## Pattern

You will learn about patterns and how to create their own form of pattern based on studies of cross-sections of fruit and vegetables

## Development

You will develop their knowledge using a range of media including printmaking, collage and batik/textiles

## 3D work

Your final aspect of the project will cover art from a different culture. You will study artefacts from a different culture and produce a personal response in 3D.

## Final Assessment

The final project work studies will culminate in a final 3D piece using Ceramics and cardboard sculpture. The pupils will complete and evaluate their work
